DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house offenders of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows offenders to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	3

# Audit Findings

## Audit Narrative (including Audit Methodology)

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

The PREA audit for the Shaw Air Force Base was contracted through Ladlas Prince, LLC. Due to the size of the facility, the audit was planned for (1) day onsite at the facility and scheduled for March 23, 2021.

Initial information was provided via email by the agency and facility. These emails contained the Pre-Audit Questionnaire and supporting documentation. The facility provided its guiding policy, "20th Security Forces Squadron Prison Rape Elimination Act (PREA) Guidance". It is referenced multiple times throughout this report. In addition, the staff provided photographs of the audit notices posted throughout the facility.

The onsite audit began on March 23, 2021, with an initial meeting with the PREA Compliance Manager (PCM) and the Non-Commissioned Officer In Charge (NCOIC) from the facility. This meeting was held to make introductions, answer questions and review the tentative agenda and the facility tour began shortly after. As this facility is small, there are few staff that are assigned to the facility.

The onsite tour covered the entire facility and areas in which offenders have access to. As this is a United States Air Force Base, it is a different type of facility than most adult correctional facilities, with different staff functions and operations. More detail will be provided regarding this in later sections of this report.

Due to the size of the facility, the tour was brief. The Auditor was shown all three housing unit cells, with one of those designated as a segregation cell, one designated for pre-trial offenders and one designated for post-trial offenders. The dayroom, where offenders typically spend 80% of their time, has one camera. The main hallway has shower areas, a visitation area, a call room, laundry room, an office and storage areas.

Next the Auditor began with the interviews of staff members that were at the facility. The following staff members were interviewed as part of this onsite audit.

- Current Non-Commissioned Officer In Charge (NCOIC)
- PREA Compliance Manager (PCM)
- Captain (Warden)
- Flight Staff Members who work in B-Dock
- Corrections Officer
- Office of Special Investigations (OSI) Staff (Phone Interview)
- Sexual Assault Response Counselor (SARC)

At the time of the onsite audit, there was one offender housed in the facility and an interview was conducted with this offender.

Offender file documentation was provided by the NCOIC when requested and reviewed as a normal part of the onsite visit for a PREA audit. However, training and background check information was not available to be viewed.

At the time of the onsite audit visit, there was one offender being housed in the facility. The NCOIC indicated there had been approximately eight offenders in the facility over the past twelve months. The current offender has been housed in the facility for six months. This has been the longest stay they have had at the facility in recent memory.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

Shaw Air Force Base Confinement Facility (SCF) 20SFS is located on the Shaw Air Force Base near Sumter, South Carolina. This base is located approximately 45 minutes from the state capital of Columbia.

Shaw Air Force Base is one of the largest military bases operated by the United States. It falls under the jurisdiction of the United States Air Force Air Combat Command. The United States Air Force 20<sup>th</sup> Fighter Wing is the host unit. The base was activated on August 30, 1941. It is named in honor of a Sumter County native, and World War I pilot, Lt. Ervin David Shaw.

The base has housed many units over its operation and has been involved in many operations both combat and humanitarian. Currently it is home to the 20<sup>th</sup> Fighter Wing, and headquarters, Ninth Air Force, U.S. Air Forces Central, Third Army and U.S. Army Central.

Shaw is home to over 8,200 active-duty military members, 1,200 civilian employees and 12,000 family members. The base is located on more than 3,569 acres within the city limits of Sumter, SC. Additionally, the base is responsible for approximately 12,500 acres at Poinsett Electronic Combat Range Complex and 23.5 acres at the Lake Wateree Recreational Area.

The Air Force operates Department of Defense Level I Confinement Facilities. These facilities typically house offenders for (6) months or less but can be for a maximum of (1) year. The Air Force currently operates (16) AF Level I facilities across the United States, however this number does fluctuate as new facilities are opened and others are closed.

This facility does not have its own medical or mental health services. If those services are needed, they are available on the base or in nearby Sumter, SC.

These facilities are designed to house minimum to medium level offenders. The facilities can house either male or female offenders, but due to the design of this facility, they do not house both genders at the same time. If there were a situation where both genders may be in the facility at the same time, arrangements will be made to transfer the female to Sumter-Lee Regional Detention Center (SLRDC). The confinement facility does have a MOU with the SLRDC and is dated November and December 2020.

When the NCOIC is in the building, on duty, he monitors the offenders in the facility. When he is off duty or out of the building, the B-Dock staff, are responsible for monitoring the cameras. The offenders have access to an intercom system so that they are able to talk with B-Dock staff when they have a need.

Typically, offenders in this facility are housed there 24/7. However, similar to the work release program in civilian correctional facilities, an offender may be required to report to their work assignment they had when they were incarcerated. Usually that decision is up to their commanding officer.

This facility can house both pre-trial offenders who are pending a court-martial, as well as post-trial offenders serving a court-martial sentence. If the offender is sentenced to longer than one year, that offender will be transferred to another facility.

It should be noted that Shaw Confinement Facility has had no allegations of sexual abuse at this facility.

Due to this unique facility, the staff were clear that they rely on the expertise of the USAF PREA Coordinator when they come across a situation they have not had to deal with previously. He provides guidance and direction to the staff at SCF to ensure that all standards are being implemented properly.

The United States Air Force has established a zero-tolerance policy for all its confinement facilities. The 20 Security Forces Squadron (SFS) PREA Guidance document states the following.

**1. PURPOSE**

*"The Air Force Corrections System is committed to zero tolerance of any form of sexual abuse and sexual harassment in facilities it operates directly or with which it holds contracts for the incarceration of inmates and detainees. The purpose of this guidance is to outline the approach to preventing, detecting, and responding to sexual abuse."*

**2. ZERO TOLERANCE POLICY [C.F.R. 115.11(a), AFI 31-105 para 1.3.12.2.2.]**

*"The 20 SFS has a zero-tolerance policy towards all forms of sexual abuse and sexual harassment. This policy is directed by 28 Code of Federal Regulations (C.F.R.) Part 115, Air Force Manual (AFMAN) 31-115, and reaffirmed in this guidance for the enforcement prevention, detection and response to such conduct."*

The USAF has assigned one person, the PREA Coordinator, to oversee all confinement facilities operated by the USAF. This position is housed at the Lackland Air Force Base in San Antonio, TX. The current, and first PREA Coordinator, for the USAF is a civilian position. The PREA Coordinator is a retired AF Corrections Superintendent who also has experience working in civilian corrections in Texas. He established the PREA program from the ground up and is responsible to ensure all policies remain up to date and all facilities are in compliance with the PREA standards.

In addition to his PREA duties, the PREA Coordinator is also responsible for overseeing the overall corrections policy, restricted housing, coordinating offender movement between facilities, Levels 1-3.

Each facility has a PREA Compliance Manager (PCM) who does not directly oversee the confinement facility but does conduct PREA functions. The Non-Commissioned Officer In Charge (NCOIC) oversees the confinement facility and performs PREA functions. There is also an Assistant NCOIC for all facilities. When no corrections staff are on duty, the supervision of the confinement facility falls to the Flight Chief on duty.

Typically, the local PREA staff members at each facility are assigned to this position for an average of two years and then rotate out for a variety of reasons including, but not limited to military orders, contingency deployments, promotions, separations from the service, etc.)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The Shaw Confinement Facility (SCF) has a Memorandum of Agreement (MOA) with the Sumter-Lee regional Detention Center (SLRDC) to house offenders if needed. The staff indicated that this would only be used when there are both genders that need to be housed in the facility at the same time. If that were the case, the female offender would be the one transferred to the regional jail. This would be a temporary situation and the goal would be to get that offender transferred to another military facility.

The facility provided the MOA for review by this Auditor. The agreement includes a clause which requires the SLRDC to maintain PREA compliance and allows SCF to monitor the compliance.

4.1. SLRDC will--

4.1.9. *Ensure SLRDC facilities are Prison Rape Elimination Act (PREA) compliant. The facility shall provide the 20 SFS with the ability to monitor for compliance and/or provide proof of compliance with the Prison Rape Elimination Act (PREA) standards. Will comply with the Restricted Housing guiding principles recommended by the Department of Justice.*

The SCF provided a staffing plan for review. All required components of the staffing plan have been included. The plan provided was dated December 18, 2020.

The Major was able to discuss how the staffing plan is developed and what latitude that he has should the need arise for additional staffing at the confinement facility. He did indicate that he has not had the need to add additional staff to the confinement facility to this point.

An interview with PREA Coordinator did confirm that he is required to review and approve all facility staffing plans by January 15<sup>th</sup> of each year for the previous year.

Upper-level leadership including the PCM and NCOIC and the Assistant NCOIC (when position is filled) are required to conduct unannounced rounds throughout the facility. Interviews with staff members did indicate these rounds are being conducted. These rounds are documented in the blotter that is completed by any B-Dock personnel on shift when the event occurred.

#### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does*

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

This facility can house both male and female offenders, although not at the same time. It is the practice of the facility to conduct strip searches during the in processing of all offenders. As the PCM and NCOIC are both male staff at this time, if there is a female offender, then the staff would call in a female patrolman to assist with that search. These searches take place in the visitation room as there is a shower attached directly to that room.

The staff that supervise offenders in the confinement facility are required participate in cross gender search training. This includes the PCM, NCOIC, and all staff that work in the B-Dock office. The NCOIC and the PCM discussed the training provided to the staff members in B-Dock. The NCOIC updated the training for B-Dock staff in December 2020 and this was verified through the personnel file documentation review.

Due to the policies of the United States military, this facility has not had any offender identify as transgender. When asked about the transgender/intersex procedures that must be followed, staff were aware that there were specific regulations to follow when interacting with a transgender or intersex individual, however, they would have to refer to USAF policies to ensure that those policies are followed.

The PREA Guidance document includes a section specifically detailing the process to be followed when working with a transgender individual. The section, titled “4. Preventing and Detecting Sexual Abuse and Harassment, D. Transgender Intake, Cross Gender Viewing and Searches [C.R.F. 115.41 and 115.42]”. This information is found on pages 9-11 of the document.

During the onsite visit at SCF, there was one offender being housed at the facility. The offender did indicate to this Auditor that all materials provided to him were available in English and Spanish. Although he did not require any accommodations of the materials provided, he knew they were available.

Interviews with staff identified some unique qualities that were discussed in terms of individuals in the military overall. Due to the requirements of enlistment, individuals are required to be able to speak and understand both verbal and written English prior to their acceptance into the military. Additionally, there are very few individuals with physical disabilities in the military, again due to the requirements/demands of the positions.

However, each offender is evaluated on a case-by-case basis to determine if there is any need for materials in a different language or if there is a need as a result of any type of disability. If a need is identified, the NCOIC will ensure the offender has the appropriate tools to ensure the offender understands PREA and how to make a report if they would need to do so while housed in the confinement facility.

The SCF requires that all staff have background checks and provide information to leadership if they are involved in an incident of sexual abuse or any legal trouble. The PREA Guidance document addresses these issues.

Interviews with the PCM and the NCOIC indicated that at the time of enlistment and re-enlistment, all personnel are required to submit to background checks. It was also noted that initial background checks are completed by the Office of Personnel Management (OPM) and there are elder and child

abuse checks conducted through NCIC. Additionally, there is continual monitoring for offenses through the Air Force Justice Information System (AFJIS).

Shaw Air Force Base has departments that will investigate allegations of sexual abuse and sexual harassment. The PREA Guidance document has directives for the staff to follow, including contacting the AFOSI for direction on what procedures to follow for investigative purposes.

If there is an allegation of sexual abuse in the confinement facility, and it falls within the appropriate timeframe, the offender will be taken for a medical examination and offered a forensic medical examination. The medical center on base does not have a SAFE or SANE nurse, therefore the alleged victim must be taken to an outside civilian hospital.

Staff would ensure that immediate medical attention is not needed. If acute care is needed, the offender would be seen at the base medical center if open, and at the local civilian emergency room if outside of the hours of the medical center on base. If the alleged victim would need a forensic medical exam, the facility will take the victim to either Toomey Hospital in Sumter or Prisma Health in Toomey, SC. However, the Sexual Assault Response Coordinator (SARC) indicated that typically the forensic examination is coordinated to be conducted at Prisma Health in Toomey, SC.

During the onsite audit, the SARC was available for interview. She was aware of PREA and was able to talk about the relationship that had been established with the PCM. The PCM at the confinement facility sits on the board for the Sexual Assault Prevention and Response Office (SAPRO).

Because of the PCM's volunteer work with the SAPRO, this has given him the opportunity to work with the staff there on what PREA is and what the responsibility of the office would be in response to an allegation of sexual abuse. This office can provide advocacy and accompaniment to a forensic examination. If the victim would like to receive counseling services, the SARC is able to set that up for the victim but does not provide ongoing counseling services.

Interviews with both the PCM and the SARC clearly showed a working relationship and if the facility ever needed the services of the SAPRO, they are familiar and will provide appropriate services to all military members, even those who are incarcerated.

For all allegations of sexual abuse or sexual harassment made at the facility, the NCOIC would immediately notify the Air Force Office of Special Investigations (AFOSI). AFOSI would then determine if that department will conduct the investigation or if it will be referred to another agency. Cases of sexual harassment are referred to the Equal Opportunity (EO) Office for investigation.

The NCOIC documents all referrals for investigation and will receive a copy of the investigative information when an investigation is complete.

The PREA Guidance document provides information for staff to follow when there is an allegation of sexual abuse or sexual harassment. That information can be found in the following section.

The USAF requires that all staff members who work in the confinement facility or in the B-Dock area receive training on PREA and the policies and procedures which are in place. PREA information is incorporated into many of the trainings that confinement facility staff are required to take to know how to operate the confinement facility.

The NCOIC does training for military members of the base on sexual abuse and harassment and PREA. The training includes the following topics.

- The definition of PREA is
- Reporting process for offenders
- Offenders' rights in the confinement facility
- Working with victims and understanding responses and reactions to sexual abuse
- Transgender definitions
- Training on different searches, including cross gender searches
- Avoiding inappropriate relationships with offenders in the confinement facility

All B-Dock staff were trained just prior to the onsite audit visit and all staff interviewed were able to answer all questions posed by this Auditor. All interviewees were able to identify at least 90% of the topics that were included in the training.

Review of the personnel files verified that all B-Dock staff had PREA training with the NCOIC in November or December 2020 or in January 2021.

As a non-traditional correctional facility, the confinement facility at Shaw does not utilize volunteers or contractors which would have direct contact with offenders housed in this facility. According to staff interviews, inmate education is provided to offenders when in-processed to the facility. The NCOIC or PCM are responsible for providing all PREA information to the offender at this time.

According to staff interviews, in addition to the face-to-face information provided, each offender is required to watch a PREA video entitled "PREA: What you Need to Know". This 16-minute video is a common video used in many adult confinement facilities.

The offender that was housed at the facility at the time of the onsite audit confirmed that he did watch a video and that staff pointed out the reporting information on the bulletin board in case he needed to report sexual abuse or sexual harassment.

Additionally, the Auditor reviewed the offender files of six offenders that had been housed at SCF over the last twelve months and all contained the required documentation verifying the required education was provided to the offenders.

The PREA Guidance document the facility is to adhere to provides the following guidance.

- B. *Confinee Orientation and Education [C.F.R. 115.33, AFI 31-105 para 2.9.]*
  - (1) *During the intake process, confinees receive information explaining the facility's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment.*
  - (2) *Within 72 hours of intake, the unit provides comprehensive education to confinees either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and the CF's policies and procedures for responding to such incidents.*
  - (3) *Current confinees are to receive education upon transfer from a different facility to the extent that the policies and procedures of the confinee's new facility differ from those of the previous facility.*
  - (4) *The CF documents and tracks the training through signature on the PREA Confiner Training Acknowledgement and Receipt document located on the SF SMARTnet under the Correction & Confinement PREA tab.*
  - (5) *In addition to providing such education, the CF ensures that key information is continuously and readily available or visible to confinees through posters, confinee handbooks, or other written formats.*

Criminal investigations of sexual abuse in this confinement facility are conducted by the AFOSI. This office is a federal law enforcement agency which conducts criminal investigations. This office is not only tasked with investigating sexual abuse, but any type of crime which may occur on the base. AFOSI is not part of the confinement facility. Therefore, no PREA specialized investigations training is required of the investigators.

No staff members who work in the confinement facility conduct PREA investigations.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

As noted earlier in this report, the NCOIC is responsible for the in-processing of offenders to the confinement facility. Part of that process includes the administration of the PREA risk assessment titled "Risk Survey for Confinee Victimization and Abusiveness". This form is found on the secure SF SMARTnet according to the PREA Guidance document.

During the interview with the NCOIC, he indicated that risk assessment is almost always completed the same day the offender is processed into the facility. However, he had not completed any 30-day risk assessments.

The PREA Guidance document also has direction about when the NCOIC would be required to conduct an additional assessment. This would be required if there was a sexual abuse allegation, or the offender provided additional information regarding sexual abuse. If an offender discloses sexual abuse during this process, the NCOIC is required to offer mental health services to the offender.

The PREA Guidance document provides the following guidance regarding the required risk assessments.

F. Screening of Confinees [C.F.R. 115.41, AFI 31-105 para 3.1.3.1.]

(1) Screening for Risk of Victimization and Abusiveness

(a) Within 72-hours of in-processing, screen the confinee using the "Risk Survey for Confinnee Victimization and Abusiveness" which is located on the secure SF SMARTnet under the Air Force Confinement and Corrections Directorate tab. This survey is meant to assist in determining potential risk "to become" a victim or "to become" an abuser. Screen (personally ask) the confinee using the questionnaire located on the website (Accessing the questionnaire each time from the website ensures PREA screening questions are current with legal requirements). Take no disciplinary action for failure to cooperate with the assessment, specifically questions involving; sexual orientation, self-identified gender, previous sexual victim, or their perception of vulnerability. When necessary for staff assessment, obtain other screening answers by researching personnel records and/or criminal records, and by mere observation (e.g., size, body build, etc.).

(b) If the staff determines the confinee has, 1) experienced prior sexual victimization in a previous confinement facility, or in an institution or in the community or, 2) has previously perpetrated sexual abuse in a previous confinement facility, or in an institution or in the community then offer to schedule a follow up meeting (to occur within 14 days of the initial screening) with a medical or mental health practitioner. Place the screening document and note the acceptance/declination of the offer in the Correctional Treatment File (CTF). Subsequently, include in the CTF the medical or mental health practitioner recommendations relative to treatment plans, management decisions for housing, and work outlets programs.

(c) If sexual victimization in the community was not self-identified in the at-risk screening but, discovered by the medical or mental health practitioner, they must seek informed consent from the confinee, if over 18 years of age, for the release of that information to the confinement staff.

(d) When the staff believes the confinee has adjusted to placement in a confined setting, using the same questions and methods, conduct the screening again however, do not exceed 30 days from in-processing. Reassess as necessary, when additional information is received or an abusive or victimization situation occurs or is believed possible. Place the screening document in the CTF.

(e) The goal is to make decisions to keep potential victims from potential abusers. The Confinement NCOIC makes individual determinations on the best manner to ensure safety for those at-risk concerning housing, work outlets, etc. Conversely, do not use this information to separate groups of individuals (where no risk of harm or abuse exists) based solely on sexual orientation or self-identified gender unless under a legal order.

This Auditor had the opportunity to review offender files and documentation. While there was the required 72-hour risk assessment in all files, there were no 30-day risk assessments included. Staff were not able to provide any documentation that these assessments had been conducted.

The facility was required to implement a process to ensure that the 30-day risk assessment is completed for all offenders who are still in the confinement facility at that point.

The NCOIC immediately conducted the 30-day risk assessment with the offender who was in the facility at the time of the onsite audit visit. He then sent that completed risk assessment to this Auditor to verify that it was completed.

In addition, the facility admitted another offender shortly after the onsite audit visit. The NCOIC completed both the 72-hour and 30-day risk assessments for that offender. This documentation brought this standard into compliance.

#### Auditor Overall Compliance Determination

**Exceeds Standard** (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The NCOIC is required utilize the information obtained from the risk assessment when determining housing assignments and work outlets. This assessment was developed for staff to utilize as a tool for making good correctional decisions.

The PREA Guidance document states the following in regard to this standard.

- F. **Screening of Confinees** [C.F.R. 115.41, AFI 31-105 para 3.1.3.1.]
- (1) **Screening for Risk of Victimization and Abusiveness**
- (e) *The goal is to make decisions to keep potential victims from potential abusers. The Confinement NCOIC makes individual determinations on the best manner to ensure safety for those at-risk concerning housing, work outlets, etc. Conversely, do not use this information to separate groups of individuals (where no risk of harm or abuse exists) based solely on sexual orientation or self-identified gender unless under legal order.*

When interviewed, the staff indicated that there has not been a transgender or intersex individual in the facility during the time they have been assigned to their current posts. The PREA Guidance document states the following.

*"D. Transgender Intake, Cross Gender Viewing and Searches [C.F.R. 115.41 and 115.42]*

- (1) *Transgender/Intersex Intake:*
- a. *Transgender/intersex housing and programming assignment decisions are made on a case-by-case basis and coordinated with the Confinement Officer and the AFSFC.*
  - b. *Assignments are made with the confinee's health and safety in mind; and whether the placement would present management or security problems.*
  - c. *In creating the individual treatment plan, a transgender or intersex confinee's own views with respect to their own safety shall be given serious consideration.*
  - d. *Staff should ask transgender confinee's housing preferences (housed as a male or female) and document accordingly.*
  - e. *Transgender or intersex confinees are given the opportunity to shower separately from other inmates.*
  - f. *Confinement NCOIC follows up every (30) days to determine whether there have been any threats to safety experienced by the confinee.*
  - g. *The confinement facility does not place lesbian, gay, bisexual, transgender, or intersex confinees in dedicated units, or wings based on such identification or status.*

As this facility is very small with limited bed space and usually more than one offender at a time, the staff will utilize the risk assessment information as needed for housing, work, education and programming needs.

It is the policy of SCF to not place offenders at high risk for sexual victimization in involuntary segregated housing unless no other alternatives are available. SCF does have one segregation cell if protective custody measures are needed. However, there is rarely more than one offender confined at any one time.

With that being noted, the NCOIC was familiar with the PREA Guidance document and that there was a procedure that would need to be followed and documented if involuntary protective custody measures were implemented.

The PREA Guidance document reads as follows regarding protective custody.

*"G. Protection of Confinees Facing Substantial Risk [C.F.R. 115.62, AFI 31-105 para 2.5.2.16.]*

(3) ***Protective Custody [C.F.R. 115.43, AFI 31-105 para 5.5.5.]***

- (a) *Confinees at high risk for sexual victimization are not placed in involuntary segregated housing unless the CF has assessed all available alternatives and has determined that there are no available alternative means of separation from likely abusers.*
- (b) *If the facility restricts access to programs, privileges, education or work opportunities, it documents in the blotter the opportunities that have been limited, the duration of the limitation and reasons for such limitations.*
- (c) *If an involuntary segregated housing assignment is made pursuant to this section, the facility will clearly document the basis for the facility's concern for the confinee's safety and the reason why no alternative means of separation can be arranged.*
- (d) *The facility assigns such confinees to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged. Such an assignment shall not ordinarily exceed a period of (30) days.*
- (e) *Every (30) days, the facility affords each such confinee a review to determine whether there is a continuing need for separation from the general population.*

*NOTE: Smaller Air Force Level I facilities with limited housing options must consider where confinees who may be at high risk for sexual abuse can be housed. In the absence of dedicated wings or a unit for high-risk confinees, small facilities can consider separating or segregating likely abusers, rather than likely victims.*

The SCF provides multiple methods for offenders to report sexual abuse and sexual harassment. The PREA Guidance document provides the following information regarding offender reporting.

5. **RESPONDING TO REPORTS OF SEXUAL ABUSE AND SEXUAL HARASSMENT**  
[C.F.R. 115.51, AFI 31-105 para 2.5.1.2.1.]

To respond to reported incidents of sexual abuse, the 20 SFS have adopted and implemented the following processes:

A. Procedures for Reporting Sexual Abuse and Sexual Harassment

(1) Confinee Reporting

- (a) The CF provides multiple internal ways for confinees to privately report sexual abuse and sexual harassment, retaliation by other confinees or staff for reporting sexual abuse or sexual harassment, and staff neglect that may have contributed to such incidents. Confinees may report concerns by: Directly notifying the NCOIC or a staff member, request First Sergeant visit, DD Form 510 (Prisoner Request), the intercom system and the telephone located inside the CF.
- (b) The CF also provides at least one way for confinees to report abuse, harassment, retaliation, and staff neglect to a public or private entity that is not part of the agency and that is able to receive and immediately forward confinee reports of sexual abuse and sexual harassment to agency officials, allowing the confinee to remain anonymous upon request.
- (c) Staff accepts reports made verbally, in writing, and anonymously. Staff promptly documents any verbal reports. A pamphlet will be given to all visitors with information on how to fill a report and who to fill a report with.

If a staff member receives a report of sexual abuse or sexual harassment from an offender, the staff member must document all such reports as soon as possible after receiving them. All staff interviewed indicated that they are required to take all reports of sexual abuse whether they are anonymous or through a third person and refer them to the NCOIC who will then refer the reports for investigation.

During the onsite audit visit, this Auditor observed PREA information posted throughout the confinement facility with information on how to make a report.

Due to the rules and regulations of enlistment, no military personnel would be an unauthorized alien to the country. All military personnel must be United States citizens. As such, no offenders would be held solely on civil immigration purposes.

## Standard 115.52: Exhaustion of administrative remedies

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of

explicit policy, the agency does not have an administrative remedies process to address sexual abuse.  Yes  No

#### 115.52 (b)

- Does the agency permit offenders to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.)  Yes  No  NA
- Does the agency always refrain from requiring an inmate to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.)  Yes  No  NA

#### 115.52 (c)

- Does the agency ensure that: An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)  Yes  No  NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)  Yes  No  NA

#### 115.52 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by offenders in preparing any administrative appeal.) (N/A if agency is exempt from this standard.)  Yes  No  NA
- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)  Yes  No  NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.)  Yes  No  NA

#### 115.52 (e)

- Are third parties, including fellow offenders, staff members, family members, attorneys, and outside advocates, permitted to assist offenders in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)  Yes  No  NA
- Are those third parties also permitted to file such requests on behalf of offenders? (If a third-party files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her

behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.)  Yes  No  NA

- If the inmate declines to have the request processed on his or her behalf, does the agency document the inmate's decision? (N/A if agency is exempt from this standard.)  Yes  No  NA

#### 115.52 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)  Yes  No  NA
- After receiving an emergency grievance alleging an inmate is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.)  Yes  No  NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.)  Yes  No  NA
- After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.)  Yes  No  NA
- Does the initial response and final agency decision document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)  Yes  No  NA
- Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.)  Yes  No  NA
- Does the agency's final decision document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.)  Yes  No  NA

#### 115.52 (g)

- If the agency disciplines an inmate for filing a grievance related to alleged sexual abuse, does it do so ONLY where the agency demonstrates that the inmate filed the grievance in bad faith? (N/A if agency is exempt from this standard.)  Yes  No  NA

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

**Does Not Meet Standard** (*Requires Corrective Action*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The SCF does have a grievance procedure. That procedure has been modified to be in compliance with the federal PREA standards. The staff indicated that they have not had any reports of sexual abuse documented through the grievance procedure the NCOIC was aware that there was a change to the normal grievance process when it involves PREA. The PREA Guidance document reads as follows.

5. **RESPONDING TO REPORTS OF SEXUAL ABUSE AND SEXUAL HARASSMENT** [C.F.R. 115.51, AFI 31-105 para 2.5.1.2.1.]
  - A. **Procedures for Reporting Sexual Abuse and Sexual Harassment:**

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does*

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

When an allegation of sexual abuse is reported to the staff of SCF, it is the responsibility of the NCOIC or PCM to ensure that information is provided to the alleged victim regarding rape crisis services that are available to them. Military personnel have the option of working with SAPRO or accessing the services of the local civilian rape crisis center.

If an offender is transported to the local civilian hospital for a forensic rape examination, the offender should be offered the services of a local rape crisis center or SAPRO, free of charge. If the offender chooses to utilize either of these options, the NCOIC should make arrangements for the offender to meet with the rape crisis center or SAPRO staff.

The interviews with staff at the facility indicated that they have never had to make these accommodations as there have not been any allegations of sexual abuse at SCF.

As noted earlier in this report, the facility has an excellent relationship with the SAPRO since the PCM is a board member for the agency. This relationship has ensured that the SARC is very familiar with PREA and the responsibilities of the SAPRO. The SARC was able to articulate how her office would work with the confinement facility should the need arise.

## Standard 115.54: Third-party reporting

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.54 (a)

- Has the agency established a method to receive third-party reports of sexual abuse and sexual harassment?  Yes  No
- Has the agency distributed publicly information on how to report sexual abuse and sexual harassment on behalf of an inmate?  Yes  No

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The USAF does provide reporting information to the general public via its website at <https://www.afsfc.af.mil/PREA>. The DoD Safe Helpline information is displayed prominently at the top of the PREA information page. The phone number is toll free, worldwide and operates 24/7. Further down the page, additional information is provided for any individual wishing to make a report about the specific information to provide during the reporting process if possible such as, “name of confinement facility of incident, name of victim(s), witnesses, perpetrators, date/time of incident, and any additional details.”

Additionally, on the webpage, there is a link to a “Prison Rape Elimination Act (PREA) Third Party Incident Reporting Form”. This form can be downloaded and filled out. It contains instructions at the bottom of the form to email it or snail mail it to the PREA Coordinator. Phone numbers for the DoD Safe Helpline and Security Forces Center Operations Center are also listed on this form.

## OFFICIAL RESPONSE FOLLOWING AN INMATE REPORT

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Policy and procedures are in place to ensure that all staff are aware of their reporting duties if an offender makes a report to them regarding sexual abuse or sexual harassment. Interviews with staff members indicated all know their responsibilities for ensuring all allegations are reported to the NCOIC and/or PCM and these reports are to be documented as soon as possible.

The PREA Guidance document also indicates that staff with knowledge of an alleged sexual abuse or sexual harassment cannot share any information regarding the incident, except for with officials with the need to know to provide supportive and investigative services to the alleged victim.

As there are no medical or mental health staff employed at this confinement facility, these items do not apply to Shaw Confinement Facility.

#### Standard 115.62: Agency protection duties

## All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

### 115.62 (a)

- When the agency learns that an inmate is subject to a substantial risk of imminent sexual abuse, does it take immediate action to protect the inmate?  Yes  No

### Auditor Overall Compliance Determination

Interviews with all staff members were clear that if they learn that an inmate is in imminent danger of being sexually abused, they will take measures to immediately remove that inmate from the alleged danger. If staff from B-Dock received a report, that staff member would immediately notify the NCOIC or PCM. One of these two would then make the determination of how to handle the situation.

In extreme cases, the facility could transfer an offender to another military confinement facility or utilize the MOA with SLRDC to hold one or more offender should the need arise. This situation has never occurred at the facility.

## Standard 115.63: Reporting to other confinement facilities

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.63 (a)

- Upon receiving an allegation that an inmate was sexually abused while confined at another facility, does the head of the facility that received the allegation notify the head of the facility or appropriate office of the agency where the alleged abuse occurred?  Yes  No

#### 115.63 (b)

- Is such notification provided as soon as possible, but no later than 72 hours after receiving the allegation?  Yes  No

#### 115.63 (c)

- Does the agency document that it has provided such notification?  Yes  No

#### 115.63 (d)

- Does the facility head or agency office that receives such notification ensure that the allegation is investigated in accordance with these standards?  Yes  No

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The SCF has a process established by policy to ensure that all allegations regarding sexual abuse at another facility is referred to that facility within the required 72-hour time frame. The PREA Guidance document provides direction to staff regarding how to handle this information.

*I. Notifying Other Confinement Agencies [C.F.R. 115.63, AFI 31-105 para 2.6.2.16.]*

- (a) Upon the CF receiving an allegation that a confinee was sexually abused while confined at another facility, within 72-hours, the DFC will either, 1) notify the head of the other facility of the allegation or, 2) notify the appropriate investigating agency.*
- (b) In either case, document the notification, as appropriate. Instruct staff how to assist confinee(s) in gaining access to care and support services.*

As with other standards, the staff has indicated that they have had no reports of abuse at other confinement facilities. The NCOIC was familiar with the PREA Guidance document and would need to refer to it to ensure that all standards are being correctly implemented.

#### Standard 115.64: Staff first responder duties

#### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.64 (a)

- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Separate the alleged victim and abuser?  
 Yes  No

- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence?  Yes  No
- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence?  Yes  No
- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence?  Yes  No

#### 115.64 (b)

- If the first staff responder is not a security staff member, is the responder required to request that the alleged victim not take any actions that could destroy physical evidence, and then notify security staff?  Yes  No

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

During the interviews with staff, it was clear that staff had received information about the initial response and understood that information. The staff were able to articulate what they are required to do when the situation arises such as separate the alleged victim and perpetrator, notify the NCOIC and/or PCM and preserve the crime scene until the appropriate steps are taken to collect any evidence that may be available.

The PREA Guidance document clearly articulates the procedures that are in place for the immediate response to an allegation. It reads as follows.

- C. *Immediate Steps after Receiving Report [C.F.R. 115.64 and 115.82, AFI 31-105 para 8.10 and 5.7]*

- (1) When a confinement staff first-responder learns that a confinee has been sexually abused, immediate action is taken to protect the confinee. The PREA Response Checklist located on the secure SF SMARTnet is initiated immediately. Non-confinement staff first-responders notify staff of sexual abuse allegations. The confinement staff first responders actions include:
- (a) Separate the confinee from the alleged perpetrator.
  - (b) Preserve and protect any crime scene until appropriate steps can be taken to collect evidence.
  - (c) If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim – and ensure that the alleged abuser – not take any actions that could destroy physical evidence, including washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking or eating.
  - (d) Confinement staff first responders immediately notify AFOSI and the appropriate medical and mental health practioners.

NOTE: The CF forwards a copy of the PREA Response Checklist promptly upon completion to the AFSFC PREA Coordinator at [afsfc.sfcv.1@us.af.mil](mailto:afsfc.sfcv.1@us.af.mil).

Again, the staff have not received any allegations of sexual abuse in the last year.

The SCF has a policy in place to ensure that alleged victims of sexual abuse and individuals who report sexual abuse are monitored for retaliation by the PCM. During the interview with the PCM, he was aware of this process, but again, has not had to conduct retaliation monitoring in his tenure in this position. The Form 2711 would be utilized to document this monitoring.

The PREA Guidance document outlines the steps to be taken by the NCOIC. The following information is included.

- G. *Protection of Confinees from Retaliation [C.F.R. 115.67, AFI 31-105 para 2.6.2.16.]*

As noted earlier in the report, no staff members at SCF conduct PREA investigations. All allegations, even third party and anonymous reports, are referred to AFOSI. The Air Force Office of Special Investigations is responsible for determining if this is a criminal investigation or not. AFOSI will make the determination of what entity will conduct the investigation into the allegation.

There is an AFOSI office located at Shaw AFB. These investigators do not fall under the purview of the confinement facility at Shaw. Therefore, they are not required to take specific PREA specialized training.

The PREA Guidance document discusses the criminal process and those criminal investigations are completed, even if the individuals involved are transferred to other bases, deployed, etc.

The Data Collection and Review section of the PREA Guidance document specifies that all PREA incident-based documents are maintained at the unit level for as long as the alleged abuser is incarcerated plus (5) years.

"F. Investigation of Incidents [C.F.R. 115.21(a)(b)(c)(f) and (h), 115.22, 115.71, 115.72, 115.73]

(2) Sexual assault or sexual harassment allegations are referred for criminal investigation to AFOSI or another criminal investigative agency as AFOSI determines and are not considered administrative investigations. The facility request relevant information from AFOSI in order to inform the confinee of the investigation outcome. Shaw AFB AFOSI does not impose a higher standard than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated.

The interview with the OSI investigator confirmed the requirement of the standard of evidence utilized in the conduct of administrative investigations.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

As the facility has not had any allegations of sexual abuse and subsequent investigations, the staff at the facility have not had to use this standard. However, the staff is aware of the requirement to notify alleged victims of the outcome of cases and if criminal charges filed and the outcome of those cases.

Additionally, if the allegation is against a staff member, notification must be made not only when charges are filed against the staff member in relation to the sexual abuse incident, but also when the staff member has been convicted of the charge related to the sexual abuse in the facility.

The NCOIC was very clear about the responsibility of reporting to the offender should there be an administrative and/or criminal investigation.

Through discussions with the PCM, Major, NCOIC and national level personnel interviewed, it was clear there is zero tolerance for sexual abuse, especially by staff members.

The Shaw Confinement Facility would require that following the conclusion of an investigation of sexual abuse at its facility, the staff conduct a Sexual Abuse Incident Review (SAIR). The agency level PREA Coordinator has developed a template/form (Security Forces PREA Sexual Abuse Incident Review Checklist) for the facility to utilize when conducting these reviews. As noted, the facility has not had a sexual abuse investigation and therefore has not utilized this process.

The PREA Guidance document does provide direction to the staff members at the facility on how to conduct this review. The PREA Coordinator for the USAF will also be available for assistance with this process when the facility has to implement it.

The PREA Guidance document outlines this process as follows.

F. *Investigations of Incidents [C.F.R. 115.21(a)(b)(c)(f) and (h), 115.22, 115.71, 115.72, 115.73]*

The Commander of the facility provided a "Memorandum of Record" indicating those members of the base that would be involved in this review. This list includes a comprehensive look at the departments that may be involved in the response to the sexual abuse.

It is the responsibility of the PREA Compliance Manager to ensure that all documentation is provided to the Air Force PREA Coordinator. The PCM is to utilize the standardized PREA Response Checklist located on the SF SMARTnet to ensure that all supporting documentation is provided to the PREA Coordinator at the conclusion of any sexual abuse incident reviews.

Outside of those reviews, sexual abuse data is submitted once a year to the Air Force PREA Coordinator in order for him to complete the Survey of Sexual Violence (SSV) requested by the Department of Justice. This aggregate data is collected on a standardized template located on the SF SMARTnet. This template contains the following questions to be answered by each facility.

- Confinee-on-Confinee allegations of Nonconsensual Sexual Acts
- Confinee-on-Confinee allegations of Abusive Sexual Contact

- Staff-on-confinee allegations of Staff Sexual Misconduct
- Staff-on-confinee allegations of Sexual Harassment

The PREA Guidance document outlines this information in *Section 7. Data Collection and Review [C.F.R. 115.87]*.

The Air Force takes great care to secure the information regarding sexual abuse and sexual harassment investigations and other related data. The USAF has a secure system where all information is stored to ensure that no personal information is available to the public. Sensitive information provided to this Auditor was sent through secure means to protect data and information.

Additionally, this Auditor noted while conducting the onsite audit visit that when staff sat down at a computer terminal to retrieve data, the computer was password protected and must be re-entered each time.

Aggregated, incident-based data is maintained for a period of ten years after the date of the initial collection unless Federal, State or local law requires otherwise. This policy was verified through the interview with the Air Force PREA Coordinator.

The staff were diligent in compiling reports that did not include any personal data or identifiers. This Auditor reviewed several public reports, and none included any personal data or identifiers.
